

About smart APEX Company

Founded in 2013, smart APEX company is a developer and manufacturer of home automation components with extensive experience. At smart APEX Company, we always strive for innovation and quality. Under the APEX brand name, the smart APEX company offers a variety of smart system products, including panelize modules, smart light switches, smart dimmers and thermostatic light switch equipped with Z-Wave, CAN-BUS, and TCP/IP protocols. Open communication protocol and available software drivers enable APEX components to be integrated with the best-known platforms.

The APEX DIN-Rail isolated-16-Channel digital input with LED indicators. This module needed to connect to APEX din-rail modules or MINI-IP via the CAN-BUS network. An external 12VDC power supply is needed for a trigger from any type of sensor or contact output product.

Specifications

Model number	APX-D16-BA
Power requirement	110 ~ 220VAC
Power consumption	<3W
Supported input type	Contact (short or open between lx(x=1-16) and COM (+12V) pin)
Control communication	CAN-BUS
Inputs operation method	Digital input (0 / +12VDC)
Operational temperature	-10 to 60 °C
Humidity	5% to 95% non-condensing
Weight	0.4kg
